Node.js

JSON

AJAX

Heroku

EDUCATION

DUKE UNIVERSITY
August 2014 – May 2015

EXPERIENCE

GENERAL ASSEMBLY   September 2015 – December 2015

New York, NY

Web Development Immersive

- Twelve-week intensive course
- Learned and applied skills in JavaScript, HTML/CSS, Ruby on Rails, and MEAN Stack to independent and group projects.
- Practiced Github workflow while collaborating on a three-person team to create a single-page concert-reviewing application using MongoDB, Express, Node.js, jQuery, and AJAX requests to the BandsInTown external API.
- Developed a single-page group travel application using the MEAN stack, the Google Maps and Autocomplete APIs, and Google's Material Design CSS framework.
- Created a Ruby on Rails application that accessed the Spotify API and allowed users to search for and share Spotify songs, as well as like and comment on others' posts.
- Developed a single-page random lyric generator application using the MEAN stack, jQuery, and the Genius lyric API.
- Created an event-planning application using Ruby on Rails and Bootstrap.
- Built a Connect Four game using JavaScript, jQuery, HTML, and CSS.

DUKE UNIVERSITY   August 2014 – May 2015

Durham, NC

FORM Magazine (Duke's Fashion Magazine)

- Produced blog posts and articles
- Organized and styled fashion and editorial photo shoots
- Collaborated with members of layout, art, media, advertising, and production teams

ACTIVITIES

VIOLIN   January 2009 –

- Performed as a soloist at venues including Carnegie Hall's Weill Recital Hall.
- 2nd Place Winner of American Protégé International Competition.
- Assistant Concertmaster of NAfME All-National Honor Orchestra.
